ABOUT PROJECT

"Covert" is a conceptual game idea I devised as part of my DES365 project. It's not a fully developed game but rather a creative concept to jumpstart my UI/UX project. I sourced images, like landscapes and characters, from online resources to create the concept.

RESEARCH

I conducted research on font types, UI feedback, user experience, and visual aesthetics for my prototype, drawing inspiration from games like Monaco, Invisible Inc., and Mask of the Ninja.

FLOWCHART

Some modifications have been made since the creation of the wireframes and flowcharts. Nonetheless, this represents the initial design flow and layout of my prototype concept.

WIREFRAME

Settings - Reset Default

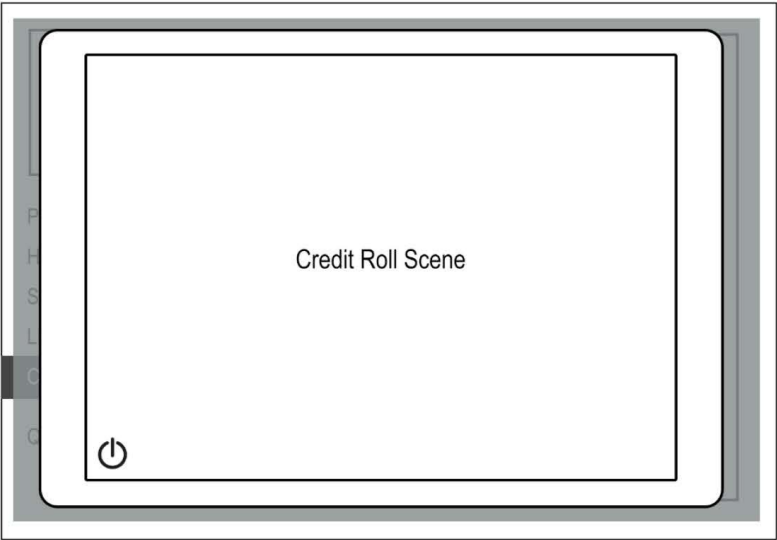

Settings - Save Settings

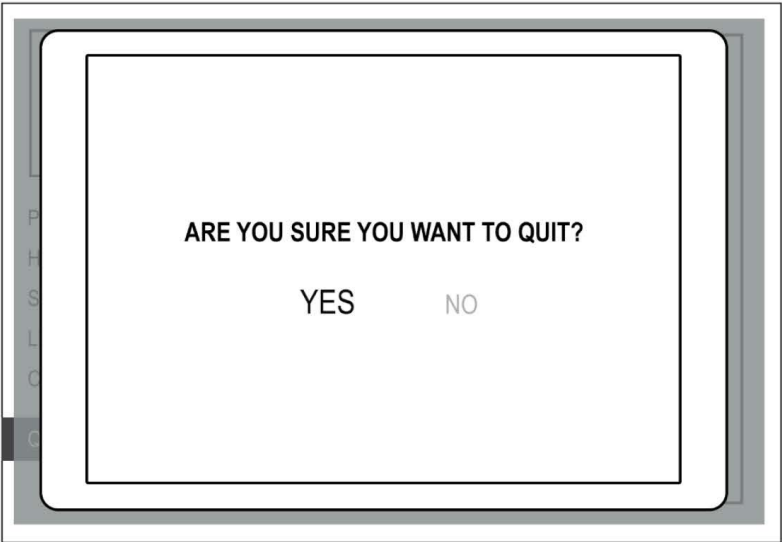

'Yes' button is being hovered so its font is white and the button is in a dark colour.

WIREFRAME

Credits

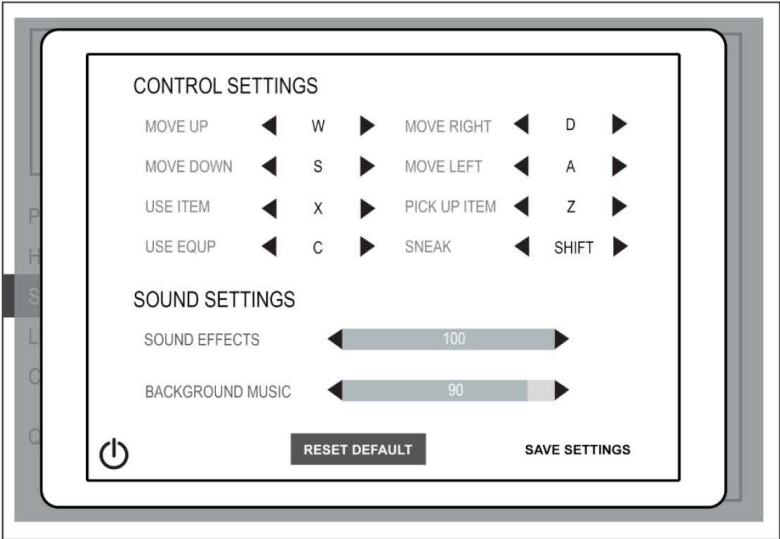

Quit

When the players hover their mouse over the 'YES' or 'NO' button, the font will become darker and more enlarged. Else it will revert itself back to its default size and colour (like in this case, the 'NO' font).

WIREFRAME

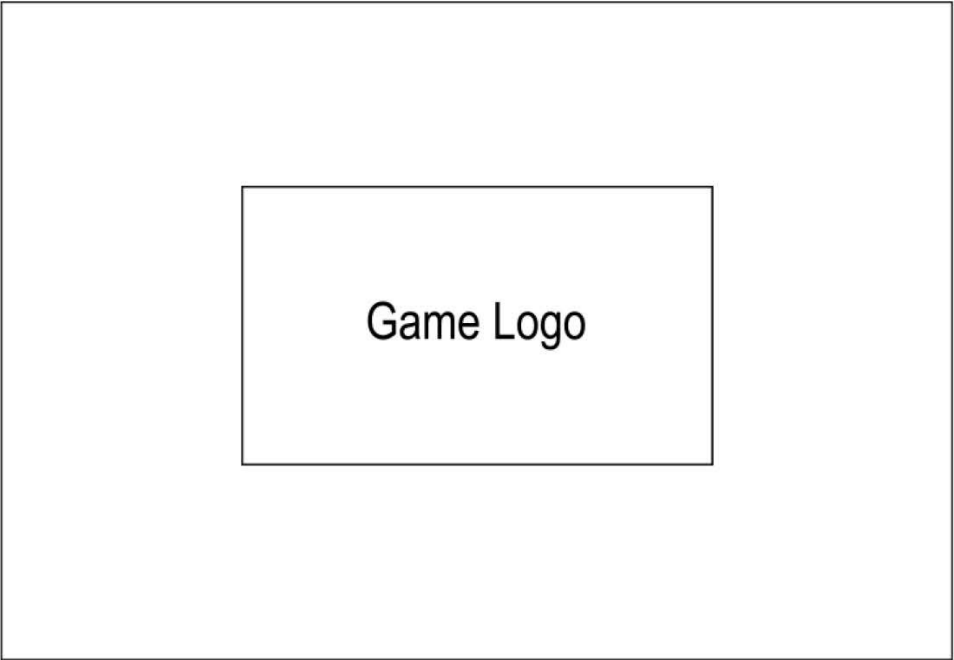

Settings

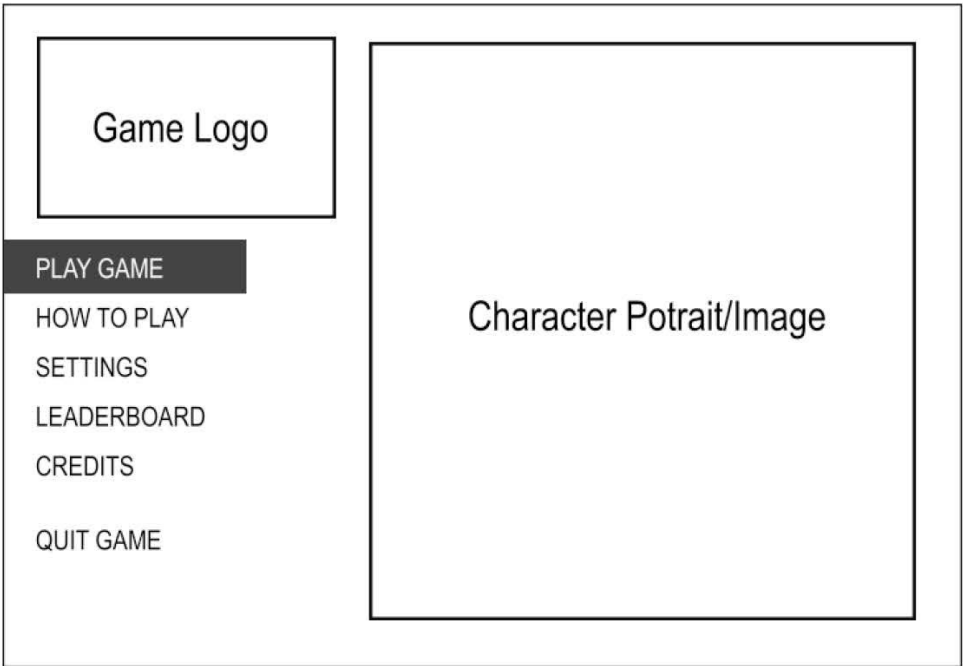

Currently the 'Reset Default' button is being hovered over, thus the button is in a darker colour and its font is white. Players can adjust the control/sound settings by toggling the arrow.

WIREFRAME

Splash Screen

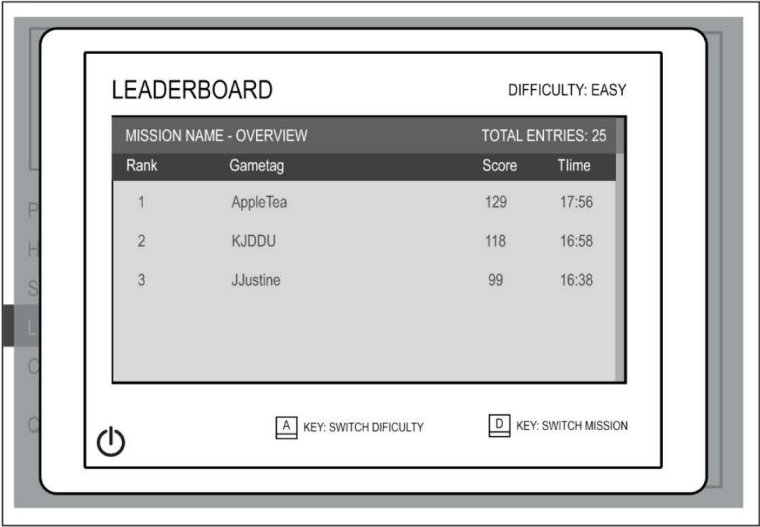

Main Menu

'Play Game' button is being mouse over/hovered in the main menu, thus the button is darker and the font is white.

WIREFRAME

Leaderboard

Players will be able to toggle the leader board through mission (by pressing the D key) or difficulty (by pressing the A key).

STYLE GUIDE

I crafted the style guide to consolidate the design elements intended for use in the game. The style guide I've created here is more comprehensive than the ones I've developed in my previous assignments, reflecting the specific requirements of this project.

Main Menu Hover Button Elements		
HOW TO PLAY 480 width x 120 height		ROBOTO BLACK SIZE 24
SETTINGS 480 width x 120 height		
PLAY GAME 480 width x 120 height		
CREDIT 480 width x 120 height		
QUIT GAME 480 width x 120 height		

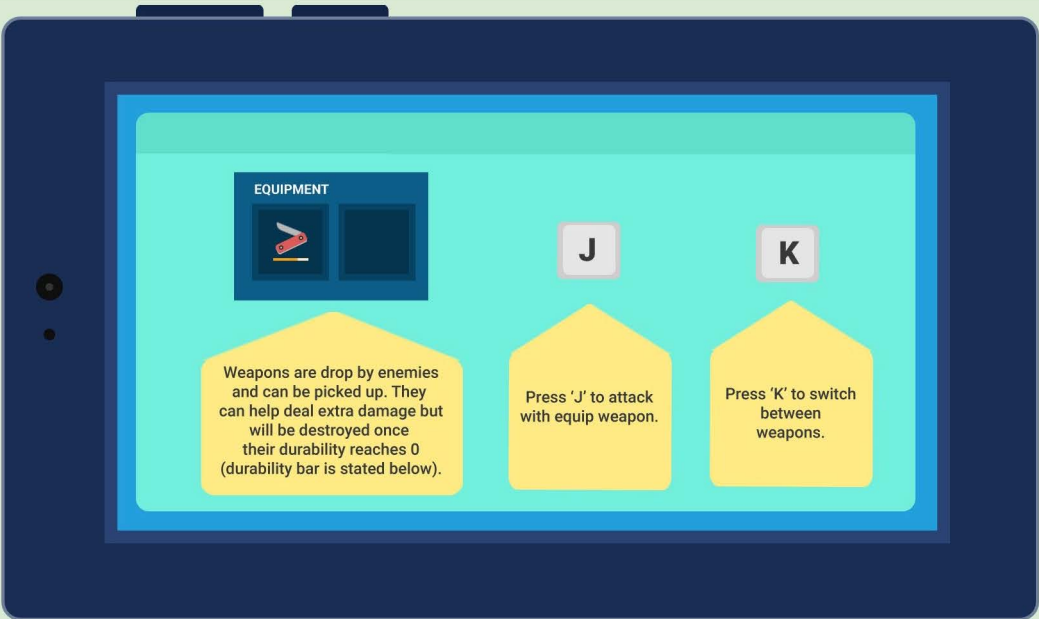

STYLE GUIDE

Normal Continue / Try Again Button Element		
CONTINUE 480 width x 120 height		ROBOTO BLACK SIZE 24
TRY AGAIN 480 width x 120 height		ROBOTO BLACK SIZE 24

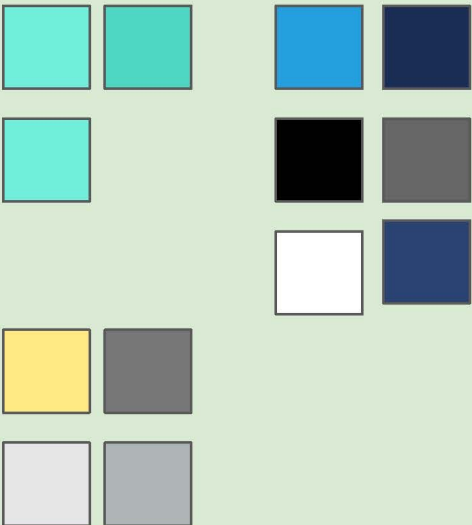

Hover Continue / Try Again Button Element		
CONTINUE 480 width x 120 height		ROBOTO BLACK SIZE 24
TRY AGAIN 480 width x 120 height		ROBOTO BLACK SIZE 24
